

● Rear Suspension

1. Rear Suspension Inspection

Check the rear suspension periodically by careful visual examination. Note the following items.

- a. Rear fork bushing—This can be checked by pushing hard against the side of the rear wheel while the motorcycle is on the mainstand and feeling for looseness of the fork bushings.
- b. Check side stand spring for damage and fitness.

- c. Check all suspension component attachment points for security of their respective fasteners.

NOTE ; If any sign of the above items is noticed, consult your HONDA dealer for further inspection.

2. Rear Fork Bushing Lubrication

There are two lubrication points ① and ② as shown in the figure. It is recom-

① Grease nipple

② Grease nipple
