

MESSAGE TO THE PARENTS

This motorcycle is designed for junior riders. Before your sons or daughters start to ride, it is important that you review the contents of this manual with them. A preliminary understanding of proper operation and maintenance will facilitate training and will contribute to their safety and the service life of the machine.

- The QR50 is an OPERATOR ONLY model.
- The vehicle load limit is 25 kg (55 lbs). Rider weight must not exceed this limit.
- The junior rider must be of sufficient size to hold the motorcycle up while straddling it with both feet on the ground. He or she must also have sufficient strength to pick up the motorcycle if it is on its side.
- The parent and junior rider must be fully familiar with the motorcycle, the motorcycle controls and control functions. Both parent and junior rider must fully understand everything in this manual before riding begins.
- For safety, the QR50 must be properly adjusted and maintained. Be sure to make pre-practice and pre-race inspections and be sure to impress on the junior rider the importance of checking all the items thoroughly before riding the motorcycle.
- Take special precautions in observing the junior rider's first use of the motorcycle. Select an off-road practice location that is level, uncongested, and free of obstacles.
- Development of the junior rider's self confidence comes with a total familiarization with the motorcycle controls and their functions plus lots of PRACTICE.
- Before allowing the junior rider to enter competition events, it is the parents' responsibility to make sure he or she has the necessary riding skills and maturity.
- It is illegal to ride the QR50 on public roads or highways. If it becomes necessary to cross a public roadway, remember to get off the QR50 and push it across.
- Always obey local off-road riding laws and regulations.
- Obtain permission to ride on private property. Avoid posted areas and obey "no trespassing" signs.
- The junior rider should always ride in the company of at least one other rider so they can assist each other in the event of trouble.
- Familiarity with the motorcycle is critically important should a problem occur far from help.
