

Headlight/Front Turn Signal/ Position Light

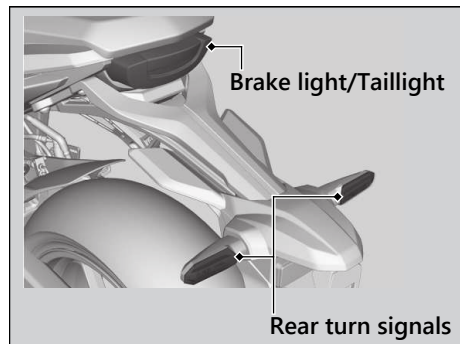

The headlights and position lights use several LEDs.

Each right and left front turn signal/position light uses an LED.

If there is an LED which is not turned on, see your dealer for servicing.

Brake light/Taillight/Rear Turn Signal

The brake light and taillight use several LEDs. Each right and left rear turn signal uses an LED.

If there is an LED which is not turned on, see your dealer for servicing.
