Storing Your Honda

5. Remove the battery and charge it fully. Store it in an area protected from freezing temperatures and direct sunlight. Slow charge the battery (page 216) once a month.

3 WARNING

The battery gives off explosive hydrogen gas during normal operation.

A spark or flame can cause the battery to explode with enough force to kill or seriously hurt you.

Wear protective clothing and a face shield, or have a skilled mechanic do the battery maintenance.

- 6. Wash and dry your Honda SXS. Wax all painted surfaces (except matte painted surface).
- 7. Inflate the tires to their recommended pressures (page 204).
- 8. Store your Honda SXS in an unheated area, free of dampness, away from sunlight, with a minimum of daily temperature variation.
- 9. Place your Honda SXS on blocks to lift all tires off the floor.
- 10. Cover your Honda SXS with a porous material. Avoid using plastic or similar non-breathing, coated materials that restrict air flow and allow heat and moisture to accumulate.
