

- 1** • Make the following checks and adjustments after installing the engine:
- | | |
|--|----------|
| (1) Cable routing | Page 242 |
| (2) Clutch lever free play | Page 72 |
| (3) Drive chain tension | Page 80 |
| (4) Engine oil level and replenishment | Page 72 |

2 CARBURETOR

NOTE

Examine the carburetor, and make sure that the insulator and connecting tube are attached to the carburetor securely.

3

A.C. GENERATOR COUPLER

NOTE

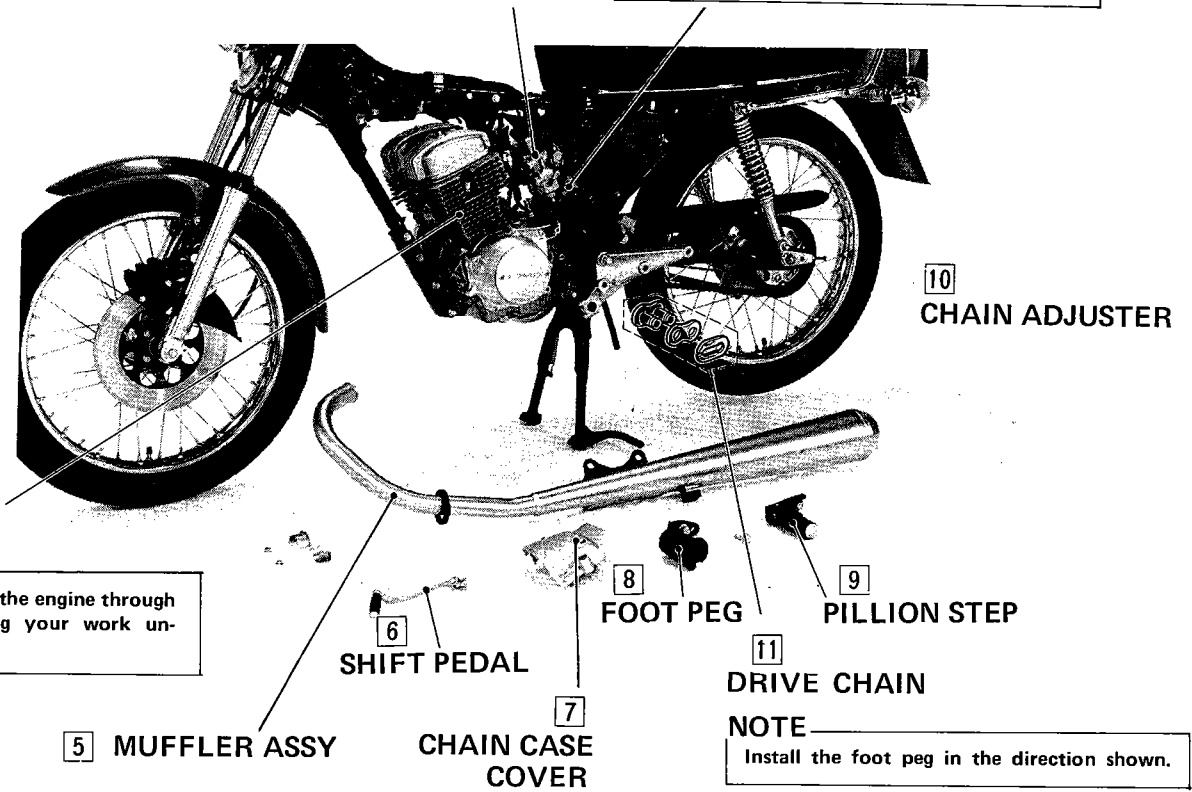

Secure the A.C. generator cord with the clip.

4

ENGINE

NOTE

Remove and install the engine through the left side, giving your work undivided attention.

12

- Install the engine hanger bolts as illustrated.
